

Electrical Energy Specialist

RISE Engineering, a division of Thielsch Engineering, Inc., is one of the longest operating energy services companies in the country. Working on behalf of the largest utilities and energy program sponsors in the Northeast, our mission is to provide one-stop services to make buildings more affordable, comfortable, healthful and efficient. We are experiencing significant growth as higher levels of incentives and resources are being made available to meet local, national, and global needs.

We are looking for qualified candidates to provide energy efficiency services to small commercial, industrial, and institutional accounts in the Albany and Mohawk Valley area. The position is based in Albany, although most of each normal workweek will be spent in customer facilities throughout the Capital and Mohawk Valley regions and the Northern territory of upstate New York.

Duties & Responsibilities

An Energy Specialist is responsible for providing energy efficiency services that include:

- Identifying opportunities for improving the efficiency of the lighting systems and other electric end-uses in a commercial, industrial, or large multifamily building;
- Developing energy savings analyses and cost estimates for the installation of recommended improvements using company-provided software and tools;
- Presenting and selling proposals to interested prospects for the installation of recommended improvements;
- Arranging for financing and incentives to help make the improvements more affordable in conjunction with an aggressive new Small Business program offered by National Grid.

Qualifications

We are looking to add personnel who have a well-developed background in lighting energy efficiency and controls. 2-4 years previous experience with another energy services firm, an electrical contractor, or an electrical distributor is preferred. Electricians who have extensive experience in lighting retrofit work are encouraged to apply.

We look for candidates with effective written, verbal communication and mathematical skills. Knowledge of basic functions of Microsoft Office is important, as is an ability to multitask and prioritize in a high volume environment with limited supervision.

Compensation and Benefits

We offer very competitive compensation, including base salaries and attractive performance incentives. Our comprehensive benefits include health/dental insurance, as well as paid vacation, holidays, sick days and life insurance. Our parent, Thielsch Engineering, Inc., offers an aggressive employee stock ownership plan (ESOP) in addition to our 401k retirement savings plan. EOE
